## FINE ART

## ABSTRACT OIL PAINTER

*"I am obsessed with color. The boldness, the nuance, the subtlety, and the complexity of color inspires me to pull out the same attributes in myself as a human. I usually don't know exactly what I'm going to paint until I'm about halfway through the piece. The unknown excites me and makes me nervous at the same time - but the discomfort is what keeps me coming back to the canvas time and time again."*
